NEWS FROM THE VIA ALGARVIANA PROJECT

AWARENESS SESSIONS BALANCE – ROTA VICENTINA

In the final stages of THE *Rota Vicentina* awareness sessions, which ran during the month of January, in the municipalities of Aljezur and Vila do Bispo, we can say that they achieved the desired objectives. The general public, companies and public authorities show us receptivity to the initiative participating with suggestions and contributions to the route structure in the Algarve.

We were even received, on January 12, 2012, on the *Escola superior de gestão hotelaria e turismo* (ESGHT), University of Portimão by a group of students, to whom we explained the project and its objectives. For all this we can conclude that the balance of the sessions is very positive.

The team thanks!

NEWS

- The team was already on the field and set part of the future connection CP *Loulé* (Trains of Portugal) to the Via Algarviana that will end in *Querença*, in articulation with the municipality of Loulé.

- The identification of complementary signs for the circular paths of *Mina e Albufeira* and *Barrancos*, both located on the Mount of Furnazinhas in the municipality of Castro Marim, has been completed. The signage will be implemented according to the rules of the Federation of Camping and Mountaineering of Portugal (FCMP).
